- Alerts
- Filters
- Affix
- Scrollspy
- Miscellaneous

Bootstrap is a free and open-source CSS framework directed at responsive, mobile-first front-end web development. It contains CSS- and JavaScript-based design templates for typography, forms, buttons, navigation, and other interface components.

Bootstrap is an HTML, CSS & JS Library that focuses on **simplifying the development of informative web pages** (as opposed to web apps). The primary purpose of adding it to a web project is to apply Bootstrap's choices of color, size, font and layout to that project.

Web designers and web developers like Bootstrap because it is **flexible and easy to work with**. Its main advantages are that it is responsive by design, it maintains wide browser compatibility, it offers consistent design by using reusable components, and it is very easy to use and quick to learn.

NOTE

Duration of training is lump sum 40 hours but it's up to learner, so it doesn't matter how much time you will take to complete the training. If your grasping level is good then it will be completed in 30 hours only. We charged fee for course not for days/hours/months.

Please call/whatsapp/e mail us for further queries.

Duration	: 40 Hours
Training Mode	: Online or Classroom
Daily Hours	: 1-2 Hour
Fee	: INR 5000.00, USD 100.00
